SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Europe.

London, Sept 26-The London Times has an article on the designs of the United States on Mexico. The Times would approve of the absorption of that country into the American Union if it could be assured of two things, viz : The fature of Mexico and the payment of her debt.

Paris, Sept 28-The Moniteur has the following from Spain: Catalonia is quiet; a battle between the Royal army under Perva and the insurgents under Serrano is momentarily expected.

Jose Salmancos was sent to Queen Isabella by General Concha praying that the young Prince of Asturias, their apponent, (?) might go to the Capital to assame the Government of the nation. The Queen refused, and returned a reply that the Prince should not ruld a people of robbers and assassins.

BERNE, Sept 26-A request to send representatives to the peace Congress soon to assemble here, will be forwarded to the United States Government, and

also to different European powers. London, Sept 25-It is reported that Madrid is quiet, but only awaits signal

for rebellion. The Queen has abdicated in favor of

General Porvaris is master of her son. Cadiz. London, Sept 27-The Revolution in Spain is the result of Constitutional, mod-

erate and liberal parties in an effort to overthrow the reigning dynasty. The fleet has joined the movement because the sailors are unpaid, and the greater part of the army revolted because they are indignant at the exile of their favorite Generals.

The Church which is boundarby, every tie to the Queen resists, and holds the masses in check.

General Porva has arrived in the vicinity of Cordova but his troops are deserting in large numbers; he was obliged to stop the march and wait reinforcements.

The province of Biscay has sent troops to San Sebastian for the protection of the Queen. In Andalusia the telegraph wires have been cut and the railroads have been cut up.

NEW YORK, Sept 27-The insurgents have again occupied Cordova, and destroyed the bridge over the Gaudalquiver, and cut the railroad to Nova. Che has arrived within fifteen miles of Cordova, and sent for reinforcements. The officers of the navy have sworn to accept no reward for service in the revolution, declaring that they have risen to free the country of oppression and a corrupt, dynasty. It is rumored that the Balcario Islands have pronounced in favor of the revolutionists. Ho tologatt amounts

DELAYED DISPATCHES.

California

San Francisco, Sept 16-When the Union State Central and County Committee applied to the California Guards to fire 200 guns in honor of the Union victory in Maine, they were informed that orders had been received from Sacramento forbi ding the use of the public armament for political purposes. As there was not sufficient time to make other arrangements, the Executive Committee have therefore determined to postpone the firing of the salute until the receipt of official figures.

About daybreak this morning, Geo. E. Obinghausen, at the corner of Third and Howard streets, committed suicide by cutting his throat with a common clasp knife while laboring under a fit of in-

Last night the barge Dick, in tow of the steamer Hensley from Stockton, ran into and stove the ship Midnight, which was at anchor in the stream. The ship is so badly injured that it is thought her cargo of grain which she has just taken in at Vallejo, will have to be discharged.

sanity.

Arthur Quinn, formerly a saloon keeper at the Mission has fallen heir to an estate of \$3,000,000 and a title of nobility in England.

Last night the body of a man named Ferguson was found in a lodging house. The man had apparently been dead about three hours. On a table was a bottle which had contained strychnine.

The United States authorities fired a salate at noon from Fort Alcatrz in honor of the anniversary of Mexican independence. The Mexicans resident in the city will fire a salute of 100 guns this

Parepa Rosa will start on a concert tour about the middle of October. She intends to visit San Jose, Stockton, Sacramento, Marysville, Grass Valley, and return to New York by the overland

Confederation.

EDITOR COLONIST .- I have only just caught sight of the letter of J C Davis, M R C S, in this morning's Colonist, too late to do more than utterly repudiate for myself and on behalf of my countrymen, the sentiment therein expressed of antagonism to our fellow subjects of the Dominion. One of 'Reader's' missiles must have touched a raw place to make the good old gentleman so snappish.

In hasto, yours, AN ENGLISHMAN.

Sept 30th, 1868.

RED RIVER .- The Nor'-Wester brings | Ba tidings from the Red River country, from which we extract the following :- The Government of Manitoba.—We are glad to be able to announce that the Govern-ment lately framed as Portage la Prairie still prospers and seems to satisfy the minds of the residents there, perfectly. We learn that the Court-house and Council Chamber are in course of construction and bridges and roads have been made. Notwithstanding the scoffs and jeers of the monopoly party here, we are glad to be able to chronicle the success of this rude attempt at giving to all men in that district individual liberty. We can only say to our neighboring and more happily situated colonists, keep on in your course Avoid petty jealousies and strive only for collective benefit, and you will earn content for yourselves and the respect of all your neighbors.

Medical.

CURES AND COMFORT FOR THE BED-RIDGEN.

Holloway's Cintment.

Tis wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and cruptions of the skin; when rubbed on the surface it penetrates and parifies each tissue on its passage, and exerne the most wholeseme influenceover the internal fructures it heals by cleaning all laim all fulles with which it comes in contact, and thereby promotes a sound and permanent

Gout and Rheumatism.

To sufferers from the racking pains of sheumatism and Gout this claiment will prove invaluable. After fomentation with warm water the southing action of this Contact is mear remarkable; it seems at once to leason indimantion, case pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Contact and Pills aroinfallible ape-

Vaccination. Towards the close of last century, an obscure country surgeon, practicing at Berkely, in Gloucestershire made a discovery, that has since proved most beneficial to the human race and prevented much death and suffering. Dr Jenner ascertained that dairymen who had contracted sores on their hands from a disease that the udders of cows were liable to, ever afterwards possessed an immunity from the contagion of Small-pox. He was thus led to try the effect of inoculation with the matter called "Cow-pox," afterwards testing its prophylactic powers by inoculating the same subjects with the virus of Small-pox, when he found that those previously affected by "Cow. pox" were proof against the poison of Small-pox. No one now doubts the protective power of vaccination, but amongst a few a doubt and ill defined dread exists, as to the danger of implanting by its agency other diseases and also as to the efficacy of its protective power and the length of time this influence lasts. As regards the danger of contracting other, and more especially impure diseases in this way such a thing is extremely improbable, and can only occur through great carelessness on the part of the operator; in deference however to this feeling, the French "Academy of Medicine" have lately procured and kept up a succession of calves inoculated directly from the cow from which the lymph, now employed in Paris for vaccination, is obtained, a system which is styled "animal vaccination" in contra distinction to that of "arm to arm" vaccination, a supply of lymph in the former case being kept up by vaccinating from calf to calf. The length of time that vaccination confers protection is a question difficult to give a definite answer to, as in some it lasts a lifetime, wnile in others its efficacy appears to decline about the age of manhood; the period however when the susceptibility to Small-pox appears to be reacquired, can only accurately be ascertained by revaccination, when, if there is no result it is a proof that the first vaccination is still protective, while on the other hand, if it "takes" it is a clear test of the system being no longer sheltered. That the protective power dies out in a large number of instances we find borne out by statistics, such as those of the army, where all recruits are revaccinated on entry into the service, and where we find in the "Sanitary Report" for 1867, out of 1000 who had been previously vaccinated, revaccination succeeded in 686 instances. The necessity of revaccination, more especially during the prevalance of an epodemic amongst the aborigines, such as we have at present, cannot be too strongly urged, as it is only by attention to this, that "a charmed life" can be insured. It this is not done, some who may have been carefully vaccinated as children, will contract Small-pox, the contagion of which is perhaps the most powerful and far reaching of any disease; but affords us pleasure to state that Wm Wilson, a mild form, and are not likely to experience the horrible disfiguration of the "face divine" that those who have never been vaccinated are liable to. In addition to all efforts in the way of vaccination and revaccinatio 'u the Municipal authorities ought to take steps to prevent the spread of the disease, by establishing a strict domestic quarantine and only allow those to approach the individuals affected, who have previously had the disease or have been revaccinated, and afterwards cause every article that had been in contact with the diseased body to be destroyed; by attention to these precautions we may "stamp out" the disease and defy its extension. It may also be of utility to know the period of incubation, i. e., during which the disease may be latent after being exposed to contagion, it is from 12 to 14 days, and the average time a person, suffering from the disease is capable of communicating infection is, dating from the invasion of the disease, about 20 days. In the mother country and most of the Colonies, vaccination is compulsory, its non-performance with-

in 3 months after birth being attended

by a heavy penalty. Such however

is not the case in this Colony, and in

the absence of the paternal care of the

State, we, as public journalists, can

only urge these facts on the attention

of the public.

Our Puget Sound Correspondence.

PORT TOWNSEND, Sept. 28, 1868. Barks Vernon, Milan and Caroline Reed, bound to San Francisco, lie in the harbor befogged. Bark Ocean ran ashore on Dungeness Spit on Friday at 9 o'clock P. M. in the fog, and is a total loss, she was light bound to Port Blakely. The steamers Merrimack and Walker went down on Sunday but could not get her off. The bark Atlanta, loaded with coal from Bellingham Bay for San Francisco, also ran ashore on Friday morning, but floated off on Saturday afternoon at 2 o'clock: The British ship Ellen sailed yesterday for San Francisco having shipped a fresh crew in the place of the one which ran away, and the claims for which the ship was libelled, being sottled.

I give you the following extract from the log of the Dungeness Light House for Thursday, Friday and Saturday, the 24th, 25th, and 26th insts :-

New Dungeness Light House, Sunday Eve., Sept. 27th 1868

Thursday commenced with light airs rom S. W. and clear; continued so till 10 o'clock p. m.; commenced blowing fresh from S. W. and light fog; started the fog bell ringing at 11 o'clock p. m., the wire which connects the hammer with the machinery got broken; at 11:30 got it repaired and began ringing again; time ringing, one hour 30 minutes, ending with weather thick and fresh winds from S.W.; fog bell still ringing.

Friday Sept. 25 - Communicatfresh breezes from the S. W. and thick fog, bell still ringing; at 4:30 a.m. the bell wire broke; stopped for repairs; did not have any wire to repair damages before daylight; at 6:30 a.m. took some wire off chimney; in going down saw a bark aground abreast of the Light; at 6:45 a. m. got repaired and started ringing-ending with thick fog, fresh breeze from S. W., fog bell still ringing, time ringing 21 hours 45 minutes; vessels passed, 1 ship, 1 bark.

Saturday, Sept. 26-Commenced with fresh breeze from S. W. and thick fog; fog bell still ringing; at 8 o'clock a. m. a man arrived who reported the bark Ocean ashore on this spit; took him over to mainland: at 9:30 o'clock a. m. it cleared off; stopped ringing the bell; time ringing 9 hours 30 minutes; at 2 o'clock p.m. the bark which was aground outside of this light floated off and proceeded down the Sound; ending with weather clear, wind light from S. W.; one bark passed down. To-day (Sunday) 3 steamers down to the bark Ocean, did not succeed in getting her off.

P. S .- This morning a Chinaman, cook on board the Russian ship Maria, stabbed the Captain in the arm because the Captain bad put some one in his place in the galley; John finding his place occupied asks the Captain the reason, the Captain replies by knocking him out of the cabin and then knocking him down, whereupon John thrusts at the Captain with a knife. Result-John is pinioned down to a ring bolt on the deck like some wild bull. Two assaults recorded, an attack by the mate upon the Captain of the bark Margaret Brander; cause-disagreement regarding wages; result-a swollen nose; and an encounter between a certain tinsmith and a fellow-townsman, cause-Port Townsend strychnine, which rendered our professor of the solder iron bellicose, result-tinsmith worsted, no arrests. Conclusion, Port Townsend is a lively place, officers of the law, malis non terrores sunt, vigilantes necessitas sunt.

REFORMATION .- Next to the condition of the Indians, the necessity for representative institutions and cheap Government, the most needed reform has been in the hat trade. It will at least have the disease in who has lately done much to reduce the romantic prices in this business, has just received by Express a most varied and complate assortment of Winter Clothing, Hosiery, Underclothing, Hats, &c., &c., which he is goods and prices are such that we can confidently recommend them to the public. *

> Another Convention .- We understand that a Convention is shortly to be held in this City by some of our citizens for the purpose of discussing a subject of considerable importance. As far as we can learn it would appear that some of the old clothiers have found out that customers will not buy from their stock of slops and shoddy, since Adams & Beaven have opened out their stock of new, fashionable and well made Clothing, Hats, Caps, &c., on Government

MRS. DIGBY PALMER intends resuming her Juvenile Dancing Class (boys and girls), on Tuesdays and Fridays at 3 p. m., to be held at the Germania Sing Verein Hall, Yates street, one door below Wells Fargo's; commencing on Friday, the 2nd October, 1868, For terms apply at Mrs Palmer's residence Kane street, Victoria, B C.

Tue proprietors of the London Houre are in the market with their stock of autumn and winter goods, which are of an unusually fine character this season, having been selected personally by Mr Turner for this market during his late visit to London and Paris.

EXTRAORDINARY CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly ashing, and my whole frame entirely shaken. Having seen the good effects of your Palsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned. Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true, I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.
"I am, dear Sir, yours very truly, "Nightingale Hall, Edmonton. your inestimable meutomy, yours inestimable meutomy, assured of its efficacy.
"I am, dear Sir, yours very truly,
"WM. BOARDS.

"To Mr. Thos. Powell."

POWELL'S BALSAM OF ANISEED

For Coughs, Colds, Influenza, Shortness of Breath, Asthma, Bronchitis, and for all affec-tions of the Lungs, this old established remedy will be found invaluable.

The large sales and increased demand for this The large sales and increased demand for this excellent and elegant proparation, which has followed its introduction into Australia, New Zealand and nearly all the British Colonics, has induced the Proprietor to still further extend the beneficial results of its use; and he begs to announce that he is now introducing its sale into Victoria, B. C., and has appointed Measrs Millard and Beedy, Wharf Street, Victoria, Wholesale Agents, through whom Chemists and Sterekeepers can obtain their supply.

The Price is within the means of all classes.

Diocesan Church Society.

A meeting of the General Committee of this Society was held on Tuesday, the following members being present; The Bi. shop of Columbia, in the Chair, the Chief Justice, the Dean, Hon JW Trutch, J D Pemberton, Revs F B Gribbell, P Jenns, Messra R Burnaby, M W T Drake, E G Alston, R Harvey, J F McCreight, S J Sparke and W C Ward. The Rev H B Owen was requested to act as Secretary pro tem.

Letters were read from Sir James Douglas Admiral Hastings and others. Sundry matters were discussed resulting in the following resolutions :

Moved by the Chief Justice, seconded by Mr Drake, and resolved - That it being highly desirable that there should be no delay in bringing the objects of the Society before the friends and members of the Church, it is resolved-in accordance with rule VI.,-That the clergy be requested to preach in their respective churches and districts two annual sermons in aid of the general fund, one before Christmas and another before Mideummer in each year, and to form a local association of subscribers in connection with the Society.

Burnaby,—That a statement of the objects of the Society be drawn up, printed and circulated amongst the friends and members of the Church for the purpose of obtaining subscriptions and donations.

Moved by Mr Sparks and carried unanimously,-That this committee recognise the Diocesan Lay Committee already existing, for dispensing the S P G grant, consisting of the Bishop, the Chief Justice, and Messrs J D Pemberton, J W Trutch, A T Bushby, E G Alston and R Finlayson, Esquis.

Upon the motion of Mr Ward, seconded by Mr McCreight, it was resolved-That the first annual general meeting of the subscribers be held on the third Tuesday in January, 1869.

The members of the committee having put down their names as annual subscribers to the amount of \$300, after a vote of thanks to the chairman, the meeting separated.

THE schooner Robert Cowan was towed to Janion, Rhodes & Co's wharf yesterday morning. She left Honolulu on 26th August, and experienced light south east winds the whole voyage until she reached the Straits, in which, as our readers already know, she was befogged for fourteen days. Trade was dull at the Islands when she left. There had been a sharp earthquake at Lahaina, which caused a tidal wave at that place ten feet high, and which also appeared at Honolulu five feet high, off and on for two days. In latitude 48.21 north, Nicholas Russian, s Greek seaman, jumped overboard and had sunk before the boat could reach him. The cargo consists of 791 bbls sugar and 669 bbls molasses consigned to Mesers Janion. Rhodes & Cc. She will commence discourging to-day, and then proceed to Burrard Inlet to load with lumber for the Islands.

LIKE OLD TIMES - Many months have passed over since we have seen anything like the bostle and business activity which prevailed upon the city wharves yesterday. The unloading of the steamer Active just in from Portland, the loading of the schooner Favorite to sail for Honolulu, and the steamer D and for Sap Francisco; the arrival of the bark Moneynick from that port, the schooner Robert Cowan from the Sandwich Islands; the steamers G S Wright and Sir James Douglas from Nanaimo, and the accumulalion of freight for the Enterprise, gave the wharves an animated and very businees-like appearance.

THE steamer Active arrived vesterday morning from Portland via Port Townsend and San Juan Island. She brought 143 tons of freight for this port, consisting of flour wheat, fruits and sheep, she had nineteen rasseagers in the cabin and five in the steerage : had a very disagreeable trip ; on Tuesday night coming from San Juan Island, had to anchor off the harbor until yesterday morning in company with the Fly and Rob Cowan, owing to the thickness of the weather.

MAZATLAN. - Gen Corona has received instructions from Mexico to the effect that the money taken from the paymaster of the Chanticleer should remain on deposit until the case was adjudicated. The employes of the custom house concerned in the transaction are to be suspended from office, during their trial before the Mazatlan tribunal. A copy of these instructions were presented to the captain of the Chanticleer.

SERMONS .- The subject of the success sermon preaching is being freely and ably discussed in the London papers. Some writers appear to think that there should be an opportunity allowed for those who do not wish to remain for that portion of the church service to leave, as is the case, by a pause just

THE WAR IN THE CRIMEA .- Gen Sir J Burgoyne, in a lengthy communication in a late number of the London Evening Mail, kes strong and labored grounds to prove at this ' late day' that the Crimean war was a perfect success, notwithstanding that some English people and foreign, take an opposite

THE WARCE OF THE USS SUWANEE .-From a gentleman recently from San Francisco, we further learn, in connection with yesterday's report, that all parties in charge of this vessel, when wrecked, were distinctly acquitted, and that the acquittal was based upon a thorough investigation of the Admiralty charts.

BALL .- The young men's dancing club give their next party on Friday evening, in the Albambra Hall. The room is being testefully decorated with flags of all nations and especial attention has been paid to the comforts of the ladies. Mr Bushell has composed a set of quadrilles called the Magdala," expressly for the occasion.

London print contains in a late number some some interesting sketches of scenes in Alaska by Fred. Whymper, formerly of Victoria, who was connected with the W U Telegraph Co's exploration. It appears he is about to publish a work on this, until lately, terra ıncognita. FROM NANAIMO.-The steamer Sir James Douglas arrived from Nanaimo yesterday

afternoon. She brings no especial news from

the north. Her freight consists of some fine

THE ILLUSTRATED NEWS .- This unequalled

beef cattle from Maple Bay, fat hoge game, butter, &c. It is expected she will leave again on to morrow, Friday morning. AN OLD FAMILIAR .- The little steamer Diana, which has skipped about in our waters for so long a time, leaves finally for San Francisco this morning, carrying a mailunder the command of Captain Leon Smith,

THE steamer Enterprise will not leave for New Westminster before Friday morning at 8 o'clock. A large freight is accumulating on the wharf to be shipped by

who took down the New World some time

San Francisco, reached the Hudson Bay Co's wharf yesterday afternoon. She will come mence discharging her cargo this morning, as advertised. FOR PORTLAND.-The stmr G S Wright arrived yesterday afternoon from Nanaimo

DIECHARGING -The bark Moneynick, from

market. She will leave for that port at 10 o'clock this morning. We can't undertake to insert

anonymous communication.

with 100 tons of coal for the Portland

Later from China and Japan.

A great battle had taken place near Yokohama, between the troops of the South and those of Tokeeyawa. The troops of the Mikado were badly demoralized, and have no spirit left.

A typhoon visited Yokohama on the 27th June, which besides other damage, blew down all the sheds of the Pacific Mail Steam-Company. Not a stick standing; a ship Compatotal wreck.

The steamship Benares, of the Peninsular and Oriental Lines, was lost on the Chinese coast 24th May, on a rock of the Fisherman's

River trade is uncommonly active in China, and ships are leaving for home laden

The revision of the British Treaty is going on slowly at Pekin.

Ten thousand Chinamen have rushed to

the gold fie ds at Chefoo. The Government tried to stop the working for gold, but John told the authorities, If you interfere with us, we will at once take arms and turn rebels. The authorities had to give in.

The Shanghai Recorder thinks Sir Ruthers ford Alcock, the British M nister, will be of more service to the Chicese, on his return to England, than their paid Minister, Mr Bur-

The Recorder laughs at Mr Burlingame's speech at the recent banquet in San Francisco. 'In place of common sense,' the editor says,' be favored his hearers only with a blaze of tiosel and a crash of bombust.

Christian men and women are being martyred in Japan, and to remonstrances on the part of foreign Consuls, an answer is returned to the effect that the Government of Japan can take care of its own local affairs.

The Bishop in charge of the French Lazarist Mission claims that there are all least one bundred thousand Christians in the Empire, members of the Roman Catholic Church, twenty thousand of whom the mis-sionaries have communion with, and the rest, although having natther priesthood nor sacraments, are blessed with a traditionary faith and practice far superior to the pagans

Stotsbashi had been recalled to Yedo. but he refused to accost his old office, consequently the young son of Tayasee, one of the three of the Tokugawa family, has been pro-claimed Shogoon.

Рисвотому. - When Dr. Sangrapo found his patients weak he gave them water gruel When they got weaker be bled them and dosed them with calomel and jalap. Gil Blas tells us they almost invariably died. A good many people are killed that way yet the world in general, however, has found out that in cases of debility and premature decay, HOSTETTER'S STOMACH BITTERS is the true life sustaining cordial. This tonic is a powerful and perfectly harmless restorative But it does more than invigorate. It regalates and purifies. While it builds up th strength and infuses vitality into the blood it brings all the secretions into harmony with the laws of health. The feebler sex find it invaluable in the various physical difficulties to which their organization renders them subject. In all bysterical and bypochondriacal cases its effect is magical. The infirmities of age are alleviated by its use ; and where the circulation is torp'd. and there is a tendency to paralysis, HOSTETTER'S BITTERS are recommended as a means of re invigorating the system and prolonging life.

At this season of the year, particularly when mid-summer's scorching heat does so much towards reducing the vital energies 'of the body, this inestimable tonic and stomachic, produces a wonderful effect. By it the strength is increased, the appetite preserved, and firmness and elasticity given

to the system. Applications of the system

Free Trade.

Victoria, Sept 28th.

EDITOR COLONIST : In a former communication I endeavered to show that Free Trade in Vancouver Island in allthings save those produced in the country would be beneficial to the whole Colony. I endeavoured to show that Reciprocity (as it is termed) would ruin the farmers and probably depopulate the rural districts. Now let us enquire how Confedn would affect the farming interest. It

er been mainteined by some of those who

now advocate Confederation, that in order to obtain agricultural settlers upon the land, great inducements must be held out. The present Tariff of British Columbia is presumed to be the result of that conviction and that it contains 'the great inducements in the shape of heavy duties upon imported agricultural productions. It is also generally asserted that since the introduction of that Tariff, settlement has increased and agriculture made considerable progress-that people have been induced to lay out considerable sums of money, in the clearing of land and the improvement of homesteads. TOne would assume therefore, that in order to retain those beneficial results, the means by which they were produced should be retained; also, will Confederation with the Dominion do so? I now quote from the Canadian News of August 6th the Tariff of the Dominion. Flour, wheat, barley, oals, potatoes, hay, are admitted duty free ! Therefore if British Columbia joins the Dominion, the farmers of this country will be deprived of the benefits of the British Columbia Tarifi the great inducement to settle and produce will be taken away, and they will be brought into direct competition with the Americans; in fact there will be free trade in agricultural produce. I have already endeavored to show that such a condition would ruin the inhabitants of the rural districts; a cruel wrong would be inflicted upon them, and they would be obliged to seek other countries or conditions to obtain a livelihood-the population would diminish Now let me ask anyone of those settlers what advantage it would be to him to sell his country for a cent per diem and be ruined and obliged to leave the country in consequence thereof? Whether it would be more advantageous to him to endeavor to improve the present Government and continue his prosperity, or to have a change of Government, become a Canadian and

starve? The answer must of ceurse be left

to himself. Let us however imagine that the country generally should show a real desire to join the Confederation imagination will run riot occasionally -or let us even imagine that the Canadian Government, by means of its Delegates and Conspirators, succeeds in deluding the people into the belief that Confederation will be beneficial to the Colony Would it not be well for the people to exmine and see whether Free Trade in Vanconver Island would be beneficial to the Colony also ? and if fourd so, to demand that Free Trade be made part of the conditions of the Union, and that it be inserted in the Organic Act. It would be the height of filly to trust to a local legeslature to ask for it, or if it did, to trust to the Dominional Government to carry it out. If inserted in the Organic Act it will possess the stamp of durability-the very thing required; if the result of the action of an Assembly, it will be without that stamp, and will be open to the chance of being deposed every year by the recommendation of the local legislature. No one could or would depend upon its permanence, and therefore it would be valueless, perhaps very linjurious. and If then the farmers should advocate Confederation, knowing the tariff of Canada, and knowing also that Confederation might also bring in its train what is termed Reciprocity, they virtually say they require neither protection nor tariff, and therefore could not object to Free Trade in Vancouver Island. If Confederation should come contrary to their wishes and desires, it will nevertheless bring with it the tariff of the Dominion and no duties on agricultural produce; so if Confederation should come with or without their desire, it will amount to very much the same thing; but with this exception, that if Free Trade exist in Vancouver Island they will get what they require without Customs duty, but if Free Trade should not exist, they will be brought into unfai with the Americans, but will also have to pay Customs duties apon what they require into

HOLLOWAY'S OINTMENT AND PILLS-In all outward complaints a desperate effort should be made to at once remove these annoying infirmities, and of establishing a cure. The remarkable remodies discoveded by ProfessorH olloway will satisfactorily accomplish this desirable result, without any of those dangers or drawbacks which attended the old method of treating ulcerative inflamations, scrofulous affections, and scorbutic annoyances. The most timid invalids may use both the Oint ment and Pills with the utmost safety and mos certain succes s, provided a moderate attention b bestowed on their accompanying "Directions." Both the preparation soothe, heal, and purify. The one assists the other most materially, in effecting cures and renewing strength by helping exhausted nature just when she needs such suc-

the bargain -- a loss at both ends.

HOSTETTER'S

STOMACH BITTERS!

A PURE AND POWERFUL TONIC CORRECTIVE AND ALTERATIVE

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Fortifies the System against Miasma and the evil effects of un wholeso ne water; invigorates the organs of digestion and the bowels;

son of Spirits, Constipation, Colic, Intermit tent Fevers, Sea Sickness, Cramps and Sparms, and all complaints of either Eex arising from Bodily Wenk.

the system or PRODUCED BY SPECIAL CAUSES.

As a remaine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, Hable to Nervous Atlate.

Persons of feeble habit, liable to Nervous Attaks, Lowness of Spirits, and Fits of Lunguer, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexos.

In districts lafe-ted with Fever and Ague, it has been found infallible as a premedy. Thousands who resort to it if undor apprehension of an attack, es ape the scoarge; and thousand who neglect to avail themselves of its protective qualities in atvance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and paintess aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

THE KING OF PERFUMES.

THE VIGTORIA PERFUMBRY is now adopted by the ELITE of the arstocracy and fashionable world on account of the superior articles for the toile

of YLANGYLANG extracted by distillation from the Unona odoratissima and imported from the Philippine islands are beyond comparison for their delicacy and sweetness. We therefore recommend the BRAU MONDE to try as a handker chief perfume.

THE EXTRACT OF YLANGYLANG

THE MANILLA BOUQUET

Besides these, which are the exclusive property of their house, Mesers Rigaud and Co prepare in a most approved and superior manner all the fashionable scents, amongst which we may mention

Jockey-Club New Mown Hay Field Flowers

Wood Violet Marechale Mousseline

Magnolia

RIGAUD'S TOLUTINE Is an admirable toilet-water, the true talisman

of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida

THE MIRANDA HAIR-OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair, It is com posed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing pefume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a deigh surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to

DENTORINE

AND TOOTH-PASTE

THE DENTORING is a pleasant elixir for the ceth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

THE ROSE POWR Preserves the skin from the roughness of the

wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice and starch powders, and it is deliciously

dical disoveries, founded on the principles of Chem

istry and Therapeutics. They must not be confounded

with secret or quack medicines, as their names suffic

ently indicate their composition; a circumstance which

has caused them to be appreciated and prescribed by the

Faculty in the whole world. They widely differ from

those numerous medicines advertised in the publi-

papers as able to cure every possible disease, as they are

pplicable only to but a very few complaints. The mo

stringent laws exist in France with regard to the sale of neaical preparations, and only those which have under

e an examination by the Academy of Medicin

and have been proved efficacious, either in the hospital

or in the practice of the first medicalmen, are authorised

by the Government. This fact must be a guarantee for

cases (of years standing) and Ulcerated Legs successfully treated.

DK. Gisson has the pleasure of announcing that he has returnet to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, bondon and Paris. The following colebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomow's, Smithfield, St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock. Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Gross, Agar street; Strand; Loddon, Whitechapel Road: Royal Free, Gray's Inn Road; King's Cologe, Portugal street

DR. Gisson has spared neither time normoney in seeking outnew remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Discusses.

How many thousands of persons, both male and femsle are there, who are sulfering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horred, situation; thousands suffor until death closes the secne. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladiss—see that they are caredfor, and cured before it be too late. Send them immediately to Dr. Girmor, a physician who has made private diseases his especial study for years, who is cortain to cure the most inveterate cases without moreury or any injurious drugs. It important to those afflicted, or to those who are interested in the property of the second of the second of the property of the second Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with uncring, or tainty, the following train of morbid sympleous, unless combattle by selecting under the cyan in the boad, ringing in the producing selecting under the cyan saling of leaves and rating of the gran, more like a producing seven to the boad, ringing in the producing selecting of the producing selecting of continuous selections, weakness of the limbs, confused wise, but of the letter, loss of contidence, difficult in approaching strangers, a dislike to form new accountainness, a disposition of shut society, loss of memory, lectic flushes; pumples and various cruptions about the confusion of the confusi

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain factions or use. By endesing \$15 in currency or \$10 in coin, in a registered letter through the Post office or through Wells Fargo & Co, a package of medicine will be forwarded by express to any part of the Pacific Coast.
